

Visitor Information

Thinking of visiting Sunny Ridge for strawberry picking? Picking is fun for all ages and a perfect family activity or a nice activity to do in-between visiting our local wineries or food emporium. We've put together this handy list of guest information for you.

What to bring

Water bottle

Strawberry picking can be a thirsty activity; we recommend you bring your own plastic or stainless steel water bottle, no glass please. Café staff can refill when required.

Footwear & clothing

Wear appropriate shoes and clothing for the weather conditions. High heels are not advisable.

Plastic Containers

You are provided with u-pick punnets for strawberry picking. Sunny Ridge is currently working on developing a BYO container system.

Sun smart protective clothing

There is very limited shade available in the strawberry fields. Please wear protective sun smart clothing i.e. hat and apply sunscreen when required.

Mobile phone/camera

Strawberry picking is the perfect photo opportunity! If you wish to bring a mobile phone or camera, please only take photos of your group. If you are sharing your photos on social media, we would love you to tag us! @sunnyridgestrawberryfarm #sunnyridge

Things to know

Prams

Access to the strawberry u-pick fields is located down a small flight of stairs. Sunny Ridge staff are available to assist with prams if required. Access to the strawberry picking from a pram is limited due to the row width in our u-pick strawberry fields.

Wheelchairs

Currently our strawberry u-pick fields are not wheelchair accessible. We are working on developing step free access and alternative u-pick facilities for everyone to enjoy the u-pick experience. Please contact staff for future enquiries.

Pets

The safety of your pet and our environment is important to us. Therefore, we ask that you leave your pets at home.

Picnic Area

Picnic facilities are currently not available at farmgate. We are working on providing these facilities in the near future.
